WiFi Campus Access Control

## The One Card solution for securing campuses

The Corbin Russwin Access 700® PW11 lockset is an intelligent WiFi lockset offering comprehensive access control for campus housing and facilities.

Using an existing WiFi network, the Access 700® PW11 connects as often or as little as you specify to control user access locally, while transmitting access events to the host system. This enables your system administrator to modify user access rules and review historical event logs. Combined with ASSA ABLOY's PERSONA Campus™ software or with approved third party OEM software, the Access 700® PW11 Series of locks integrate seamlessly into transactional and housing systems, providing comprehensive, reliable access control for the campus environment.

The Access 700® PW11 also integrates all components into one device - ANSI Grade 1 quality lock or exit device, card reader, door position switch and Request-to-Exit sensor - and is available in mortise lock, cylindrical lock and exit device.

## Access 700® PW11 Lockset Features

- Communicates via wireless (802.11b/g) network with host server or access control panel
- Battery-operated, ANSI/BHMA Grade 1 lock hardware
- Complete lockset with on-board memory:
  - 2,400 users supported per lock
  - Audit trail for last 10,000 events
- Available with:
  - keypad and magnetic stripe
  - magnetic stripe only
  - high coercivity
  - key override
- 3-hour UL fire rating for maximum security and safety
- ADA-compliant
- Compatible with ASSA ABLOY's PERSONA Campus™ software or with an approved third party OEM software
- PERSONA's Campus™ Software is an advanced and flexible locking system that supports Magnetic Stripe technology and provides seamless database integration and software interface with enterprise, transaction and housing systems. It runs on a single PC as a stand alone or networked system and works with most existing magstripe ID cards (including high coercivity magnetic stripe). Features of the PERSONA's Campus™ Software include customized access that lets you define unlimited access, extended-hours access or no access, by user, by facility, down to the individual lock and audit event histories.

Available through Authorized  
Channel Partners only. Contact
